## EDUCATION

### Pre-Licensing

#### YAF - A.R.E Study Sessions

Join us for a morning lecture and study session prepping you for the ARE exams! We will have Licensed Architects giving specific test prep strategies and answering any tough questions you may have. All sessions will feature small groups that focus on each of the 5.0 Exams in an order that will help facilitate each members path to licensure.

#### 2+2+2 Program

AIA Orlando and The Orlando Foundation for architecture provides college scholarships to students that participate in the 2+2+2 program at Valencia College, UCF and UF City-Lab Orlando. The scholarship program is available to high-achieving students with financial need who seek to attend and graduate from the nation's first 2+2+2 architectural degree program right here in Orlando.

### Continuing Education

Continuing education is required for all registered architects who practice in the state of Florida and are members of AIA. The Florida Statutes require architects to complete continuing education for licensure, while the AIA requires it for membership. Each is recorded separately, but can be interchanged, within certain guidelines.

The state of Florida requires 24 CEHs, with 22 hours in HSW and 2 hours in Building Code biannually of every odd year. AIA requires 18 LU Hours, with 12 hours in HSW annually, due the end of the calendar year. To obtain HSW or SD credits, members must take courses through AIA CES registered Providers.

### Credit Provider

If you have a course that is approved for AIA CEUs, we have a convenient and centrally located office with classroom space to host your training sessions. If you need help getting a course approved, contact [debbie@aiaorlando.com](mailto:debbie@aiaorlando.com). Once you register and offer a course for AIA CES LU's, it is your responsibility to record and report AIA member credit information within 10 business days of course completion using the Course Attendance Form. Providers must report AIA member credit information each time a course is offered.

There are two (2) types of learning units/ credit designations:

1. General Learning Units (LU): All approved provider courses are eligible for general course LU's. General course LU's are reserved for courses on a wide range of topics related to A/E/C profession, in which 75 percent of the course content is not related to HSW topics.

2. Health, Safety and Welfare (HSW or as listed in CES Discovery as LU/ HSW): For a provider to offer LU/HSW designated courses it must meet all of the criteria outlined in the HSW section of the manual and be registered as such. HSW courses tend to be in demand. For more information visit [www.aiaorlando.com](http://www.aiaorlando.com), scroll over Education and select Credit Provider.
